EXPERIENCES

Seal Labs

Staff Product Designer

Jun 2025 - Present (Full-time)

Focused on enhancing the user experience for DeFi products on both web and mobile platforms, with a key highlight being the 7K Liquidity Provider Pro. This product featured core functionalities such as liquidity deposit and withdrawal, reward claiming, rebalancing, compounding, position management, and AI-integrated automation tools. Conducted UI kits, competitive analysis, user research and delivered a design handoff framework to strengthen collaboration and accelerate the workflow between developers and designers.

Ninety Eight

Lead Product Designer

Feb 2023 - Jun 2025 (Full-time)

2yrs-5mos

Delivered comprehensive end-to-end wallet and Web3 solutions. Designed and developed the initial version of the single-chain wallet UI kit and token library. Conducted extensive UX research and analysis to inform and optimize design decisions.

Liquid

Senior Product Designer

Jul 2019 - Feb 2023 (Full-time)

3yrs-8mos

Developed a comprehensive design system and designed a trading platform for web and mobile application. Conducted UX research and analysis to ensure user-centered design solutions.

Launch Desk

Senior Product Designer

Apr 2018 - Jul 2019 (Full-time)

1yr-4mos

Designed wireframes, user flows, prototypes, and mockups for web and mobile applications in e-commerce, education, social platform and other domains. Conducted UX research to ensure effective user experience.

HDapps

Product Designer
